

Radio Ad Manager System

LinkedUpRadio is a complete web solution for radio stations. Hundreds of stations across the United States and Canada actively use our system daily. LinkedUpRadio allows individuals or groups to manage all their station websites, online ads, content, and social networking in one easy-to-use system. We provide professional support for all our services with excellence and dedication. No long term contracts. Turn around times are quick and getting started with us is easy!

Why Us

Establish a professional website presence that you deserve! We are EASY and FRIENDLY to work with from start to finish. Turn around Times for websites are generally 2 weeks time or less. We will train your staff and provide ongoing support as needed. We will share our knowledge in all our available resources and more. There are absolutely NO LONG TERM commitments necessary with our company.

Save Money

Our system is very affordable. We have flexible Pricing Packages to choose from for individuals, stations and businesses of all sizes.

Easy To Manage

Anyone can use our system! Your staff will enjoy the quick updates and the extra time to spare. Managers can update schedules and calendars, sales staff can easily manage ads across multiple sites, and individuals can post blogs to both the website and social networks in one quick swoop. No knowledge of HTML or coding necessary. Access our easy-to-use Admin from any computer at anytime.

Group Sharing

Webmaster of multiple sites can access all sites with one simple login. Website can be broken up into Clusters or Groups for your entire organization with 1 person to oversee everything. We can show you how to sync up common pages, calendars, blogs, photos, social networks and more! Update one site and our system will automatically push common pieces to your other sites.

Excellent Customer Support

Tired of waiting for a response from your old provider? We are here to help. We generally answer all questions within the same day or at max a 24 hour window during normal business hours. Our friendly staff is here to pick up calls, or return calls when requested. We have an online support site, other

resources available and ticket system for any problems you may have. We take pride in providing our customers with the best service for all sites and products we provide.

Content Management System

We have developed our own system that allows clients to save time and money. This easy-to-use CMS system allows anyone to easily update and manage all the contents for all websites in one central location with one simple login. We give you the flexibility and control you need for your website. Our system has been built for both a beginner and an advanced user. We take pride in our customer service and support and will help your business make an easy transition to our platform.

Mobile Sites

LINKEDUP MOBILE

LinkedUp Mobile is a platform to manage your mobile site. Envisionwise will organize the content of your current website seamlessly to create a beautiful new mobile site for your business.
